Lab Goal: The lab was designed to teach you how to write a class and to write methods for that class.

Lab Description: Write methods for class Stars and Stripes. Then, call the methods to create the stars and stripes patterns shown below. Make your own pattern for extra credit.

```
Lab Shell:
public class StarsAndStripes
{
   public StarsAndStripes()
   {
      out.println("StarsAndStripes");
      printTwoBlankLines();
   }

   public void printTwentyStars()
   {
   }

   public void printTwentyDashes()
   {
   }

   public void printTwoBlankLines()
   {
   }

   public void printAsmallBox()
   {
   }
}
```

Sample Output:

StarsAndStripes

Files Needed ::

StarsAndStripes.java Lab01a.java
