Lab Goal :   The lab was designed to teach you more about using data files.

Lab Description : Create an average class that will average a list of grades, dropping the low grade in the list. Format the average to two decimal places.

Sample Data :
```
8
9 10 5 20 100 100 100 90 80 84
11 22 33 44 55 66 77 85 75 62
48 52 29 100 50 29 70 80 90 70
0 100 100 90 85 67 85 48 38 49
100 90 95 98 100 97
100 90 100 100 100 100
100 100 100 100 100 100 100 100 0
90 80 90 80 60
```

Files Needed ::
Average.java
Lab13f.java

Sample Output :
```
9 10 5 20 100 100 100 90 80 84
average = 65.89

11 22 33 44 55 66 77 85 75 62
average = 57.67

48 52 29 100 50 29 70 80 90 70
average = 65.44

0 100 100 90 85 67 85 48 38 49
average = 73.56

100 90 95 98 100 97
average = 98.00

100 90 100 100 100 100
average = 100.00

100 100 100 100 100 100 100 100 0
average = 100.00

90 80 90 80 60
average = 85.00
```
